**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with attorney Diana Fu (Reg. No. 52,924) on 01/18/2005.

3. The application has been amended as follows:

Claim 10, line 2, the limitation "said data streat" should be replaced as – said data stream. Appropriate correction is required.

Claims 20-49 have been cancelled.

4. The following is an examiner's statement of reasons for allowance:

Art Unit: 2611

Regarding claim 1, the prior art of record fails to show or fairly suggest a method for transmitting a stream as set forth in the claim where the fragments in the  $k^{\text{th}}$  segment from the beginning of the data stream are transmitted with a maximum repetition period  $p(k) = \zeta (1 + \lambda)^k$  where  $0 \leq \lambda \leq 0.5$  and  $\zeta$  is maximum wait time. The closest prior art, US Patent 6,502,139 to Birk et al. shows dividing the stream of data into sequence of fragments, dividing the sequence of fragments into multiple segments, and repeatedly transmitting each segment of fragments (col. 3, lines 44-56; col. 4, lines 43-67), but the Patent lacks the specific elements of lines 2, lines 7-8 of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
